「 Commissioning: The What, Why and How. 」

Instructor : Jim Vallort
Mortenson

Distinguished Lecturer, Jim Vallort has spent his career focusing on energy: ranging from measuring energy usage, optimizing the systems, integrating automation to control energy and the impact of commissioning on energy consumption. Jim brings a unique perspective having been on the engineer of record, 3rd party commissioning and contracting sides of project delivery.

Jim is the Commissioning Program Manager for Mortenson, a Top 20 US Contractor. Jim also served as an ASHRAE Society Vice President for the 2015-2016 Board of Directors.
